

Please don't replace K-Love radio station with another LPFM station. I am a resident of Independence, Kentucky, and listen to K-Love on 104.3 out of Cincinnati, Ohio. It is difficult to explain what K-Love has meant to me in my spiritual journey. My journey actually began when I happened upon this radio station one day. I was so disgusted by what I was hearing on other stations, I was searching for a station on my car radio, not really expecting to find anything that I would want to listen to. But then, I found that this station was truly for "family-listening", and that I wouldn't be embarrassed to listen to it with my children in the car. The plus to all of this is that I re-found Jesus Christ due to listening consistently to this station. They really are uplifting and encouraging. I could go on and on about what has happened in my life after "finding" this station, all of it good for me, my family and my community, but I will try to close now. There just isn't another Christian station without commercials in this area, which really makes a difference. They always let us know what is going on in communities around the world, including our own. Please consider the service (ministry) this station provides for so many people unable to hear these words anyplace else.
